

12 September 2025

Nunavut Water Board
Manager of Licensing
Phone: 867-975-4900

Dear Richard Dwyer,

MMG Resources Inc Exploration Program Closure Notification - Land Use Permit N2024C0022 – Izok

I am writing to formally notify you of the upcoming seasonal closure of the Izok Camp, located in the Kitikmeot region of Nunavut. Following a successful field season, MMG's exploration activities have concluded, and preparations for the camp's seasonal closure are now underway.

An initial notification regarding this closure was sent to CIRNAC on 10 September 2025 by our exploration contractor, Aurora Geosciences Ltd. (Aurora) Senior Project Manager, Eileen Lyon.

In accordance with our CIRNAC LUP N2024C0022, Nunavut Water Board Water Licence 2BE-IZO2328, MMG's approved Closure and Reclamation Plan and applicable regulations and reporting requirements, please be advised that the camp will be closed for the season effective 25 September 2025.

The camp was recommissioned in June 2025 to support our latest exploration program, with operational support provided by our camp services contractor, Akokli Construction Ltd. (Akokli). Akokli will ensure the closure process aligns with full compliance industry standards, recommended guidelines, and statutory requirements, as stipulated under the aforementioned permits and MMG's approved Management Plans.

Should you have any questions or require further information, please do not hesitate to contact me directly.

Yours sincerely,

A handwritten signature in black ink that reads 'C Knight'.

Catherine Knight, P.Geol.
