Subject: Pacific Ridge Exploration Ltd. – Kazan Falls Project – New – Type “B”

Dear Mr. Roberts and Ms. Rippin Armstrong:

The Nunavut Water Board (NWB) acknowledges receipt of additional information (dated June 14th and 19th, 2006) from Pacific Ridge Exploration Ltd. (PREL) pertaining to your application for a new water license. The new information is with respect to 1) a new location for the main drill camp and its water source at Bissette Lake; 2) the reduction in the number of fly camps that is being proposed to three, and 3) the re-scheduling of the drilling program to coincide with the historical caribou water crossings use addressed in the Environmental Protection Plan. All information is available on the NWB ftp site at <ftp://ftp.nunavut.ca/nwb/2BE/2BE-KAZ/>

This information is being provided to all regulators and concerned citizens for additional review. The NWB requests that the review and any further representation to the NWB be made before 5:00 pm on July 7, 2006.

Sincerely,

Original signed by:
