Attention: Megan Porter
Licence Administrator Assistant

Dear Sirs and Mesdames:

Re: Request for Annual Reports – 2009-2011

This letter is intended to respond to your request for annual reports in respect of Licence No. 2BE-KAZ1011 (the "**Licence**") for the period of 2009-2011.

Please find attached the "2009 Status Report", originally submitted June 29, 2010 as Appendix I of the Final Closure and Reclamation Plan for the Baker Lake Basin Property, Nunavut. As described in the report, the activities during 2009 related to the demobilization of Aurora Energy's Baker Lake drill between July 17-21, 2009. Other activities described in the report relate to reclamation.

To the best of our knowledge, no activities were conducted on site during the years of 2010, and 2011. As such, there are no annual reports in respect of activities for 2010 and 2011.

It is our hope that these materials provide the information that the NWB requires in order to proceed with the cancellation of the Licence. Please let me know if you have any further questions or require any further documentation.

Sincerely,

A handwritten signature in blue ink, appearing to be "Scott Stringer", written over a circular stamp.

Scott Stringer
General Manager

cc: Phyllis Beaulieu, NWB Manager of Licensing
