Dear Karen;

**RE: KAHUNA PROJECT – Completion of Field Exploration Activities and Seasonal Camp Closure;
NWB Licence No 2BE-KDP1722**

This letter notifies NWB that 2018 exploration activities on the Kahuna property have now been completed. The Kahuna field camp has been dismantled and closed. All tents have been removed. Tent floors and wooden frames remain standing. A plywood generator shed has been left open and available should travelers between Rankin Inlet and Chesterfield Inlet require emergency shelter during the winter months.

Exploration activities and camp operations on the Kahuna Property, NIRB File Number 15EN028, are authorized under NWB Water Licence 2BE-KDP1722, INAC Land Use Permit N2015C0019, KIA Land Use Licence KVL315B01 and KIA Land Use Licence KVRW16F01.

The Kahuna camp was constructed in April 2018 and is located at 63°2'22" North Latitude 91°29'52" West Longitude. Work conducted on the Kahuna property in 2018 included Rotary Air Blast (RAB) drilling, ground geophysics, till sampling, rock sampling and geological mapping. Work on the property was conducted by both Dunnedin Ventures Inc. and the newly formed and affiliated company, Solstice Gold Corp. Custom Helicopters Ltd. provided helicopter support for the exploration program.

A summary of water use will be submitted to NWB with the Kahuna Property 2018 NWB Annual Report.

Please don't hesitate to contact me at (604) 765-1892 or aberry@dunnedinventures.com should you require additional information.

Regards,

Andrew Berry
