Exploration at the Kiggavik Project received a positive conformity determination against the Keewatin Regional Land Use Plan by the Nunavut Planning Commission (NPC) on December 15, 2006. The NIRB issued a screening decision under the file No. 06AN085 on April 3, 2007 that no review would be required. NIRB subsequently determined a change in Project scope and issued additional recommendations in a letter dated August 30, 2007.

Please note that a copy of this amendment application was provided to the NPC and the NIRB who confirmed the proposed renewal remains within the original NPC conformity determination and the NIRB screening decision. If you have any questions or require additional information, please do not hesitate to contact me at [stephanie.forseille@orano.group](mailto:stephanie.forseille@orano.group) or 306-343-4693. Thank you in advance.
