### **A. Results of Review**

After reviewing the amendment application, AANDC is satisfied that the amendment application is complete and has no recommendations.

AANDC however would like to provide one comment to the applicant. The Water Resources Division of AANDC after talking with its counterparts in the Mining Recorders Office would like to advise the applicant to contact the Mining Recorders Office at 867 975 4281 as a precaution to ensure all proper paperwork as been filed and that the Mining regulations are being followed.
