Subject: Submission of Spill Plan under Part H, Item 1 of License 2BE-KIG0708

Dear Mr. McCallum:

The Nunavut Water Board (“NWB”) would like to acknowledge receipt of the above document under Part H, Item 1 of Licence 2BE-KIG0708, received on June 19, 2007. The document was distributed for review and comments with a submission deadline of August 10, 2007. No major concerns were expressed however, some changes are required. Therefore the document was found to meet the requirements set out in the current Licence and is hereby accepted and approved by the NWB under **Motion 2007-44**, dated November 29, 2007. An *addendum* to the plan is to be submitted as part of the 2007 annual report.

Issues to be addressed in the *addendum* to the NWB-approved Plan:

- Change INAC contact information from Water Resources Inspector to Peter Kusugak, Manager of Field Operations, 867-975-4295;
- Update Environment Canada 24 hour pager to 867-766-3737;
- The Spill Plan is intended to be a stand alone document and therefore should incorporate relevant procedures and responsibilities from AREVA’s Environmental Code of Practice;
- A topographic map of suitable scale showing all facilities including camps, fuel caches, spill kit locations and their relationship to surrounding water bodies (showing drainage pathways).

Should you have any further questions, please feel free to contact Phyllis Beaulieu, Manager of Licensing, by telephone, or by email at licensing@nunavutwaterboard.org.

Yours truly,
