Re: Nunavut Water Board License 2BE-KIG0812/ Kiggavik Project Drilling within 30 meters of Ordinary High Water Mark
(Kim Sarauer, Areva Resources Canada Inc.)

Due Date: May 21, 2011

Dear Phyllis Beaulieu:

At your request, the Department of Culture, Language Elders and Youth (CLEY), Government
of Nunavut, has reviewed the above-noted application. Our recommendations are limited to CLEY's mandate
and follow.

The Department of Culture, Language, Elders and Youth does not object to drilling within 30m of the high
water mark of Andrew Lake area and Mushroom Lake if these areas have been subject to an archaeological
assessment. Three Nunavut Archaeologist Permits have been issued todate and one is currently under
review in association with this project. However, CLEY is requiring specific terms and conditions be attached
to this approval. The terms and conditions CLEY is requiring are as follows:

   1) The permittee/proponent shall have a professional archaeologist perform the Functions
        associated with the specific Types of Development outlined in attached Terms and Conditions.
   2) If there are recorded sites within the project area as indicated by Attachment #1 these
        sites must be avoided, until such time as specific mitigation measures are established.
        Attachment #1 is provided solely for the purpose of the proponent's land use
        activities as described in the land use application, and must otherwise be
        treated confidentially.
   3) If an archaeological site is encountered or disturbed in the course of the land use activity
        methods of site protection and restoration must be followed by the applicant.
Sincerely,

set by email

Julie Ross
Territorial Archaeologist
Department of Culture, Language, Elders and Youth
