RE: Licence 2BE-KIG0812 – Review of the 2012 Annual Report for the Kiggavik-Sissons Project

Dear Naomi Stumborg:

The Nunavut Water Board (NWB or Board) received from AREVA Resources Canada Inc., on January 30, 2013, the 2012 Annual Report (Report) as required under the relevant terms and conditions of Licence 2BE-KIG0812, which was issued on April 25, 2008 to the Kiggavik-Sissons Project, which is situated approximately 80 km west of the Hamlet of Baker Lake within the Kivalliq Region of Nunavut.

On February 18, 2013, the NWB acknowledged receipt of the Report and distributed the document publicly for information purposes. No comments pertaining to the document have been received by the Board to date. The NWB's staff has reviewed the document and determined that it is generally satisfactory and consistent with the reporting requirements under Part B, Item 2 in Licence 2BE-KIG0812.

The NWB recommends, however, that the Licensee should continue to keep the Board informed of all progress made in addressing any recommendations and/or outstanding issues identified in Aboriginal Affairs and Northern Development Canada's (AANDC) 2012 inspection report. In addition, the Licensee is encouraged to provide the Board, for information purposes, with additional details on the 2013 drilling program once the program becomes more clearly define and the information becomes available.

Should you have any questions, please do contact the undersigned at (604) 321-8185 or by email at sjoseph@nunavutwaterboard.org.

Yours truly,
