All -

After another successful exploration season, we have officially closed camp as of Thursday August 27, 2015. Over the course of approximately three months, we have completed our geophysical program and a drilling program totalling 8,855 meters in 35 drill holes. As always, a summary of activities will be provided in the forthcoming annual report.

If there are any questions about the 2015 Kiggavik Exploration Program, feel free to contact myself or John Robbins at John.Robbins@areva.com. It was a pleasure to host those of you that made the trip to site this season.

Regards,

Brad Pohler

SHEQ Supervisor, Exploration
