Subject: Second Revised Map-NWB2KIK Application

Greetings, Phyllis,

Please find attached the second of two slightly adjusted camp-location maps, as noted in my previous e-mail of today's date. (The attached new Figure 1 replaces "Figure 1" accompanying Appendices 10A-10B of the #N2003C0037 permit application).

Regards,

Greetings, Phyllis,

This is to advise there has been a slight change in location of the proposed camp for the Kikerk/Knife Lake Project; we are moving it to the east shore of the river, which represents a locational adjustment of only approx 700m. The new co-ordinates are as follows: 406275mE – 7433420mN (NAD 27, Zone 12), or 67° 00'20" N – 113° 09' 01" W. The slight change results in the need to adjust two maps: "MAP 1", and "Figure 1" for Appendices 10A-10B. "Map 1" is attached; revised "Figure 1" will follow shortly.

Can you post these two revised documents on the .ftp site, along with the rest of the application package?

Please advise if anything further is required at this time.

I trust that this small adjustment will not result in undue delays to the licence approval process.

I apologise for any inconvenience.

Regards,
