Good afternoon;

Email confirming above proposal (True North gems) falls outside an approved land use plan, a NPC conformity process will not be required.

Brian Aglukark, NPC
Arviat

Hello Bonnie,

Please confirm to NIRB for Screening and NPC for Conformity as we need confirmation on file. I have cc'd both organizations onto this email.

NPC we have an Conformity that was done January 28, 2010 on file, not sure if we need an revised confirmation for this renewal application.
(for your
info)

Bonnie please confirm who will be the contact person for the care of licence, is it you?

Regards,

Hello,

Please find attached documentation relating to True North's water license application.

Please let me know if you need digital copies of our fuel spill plan and abandonment plan, I do know Phyllis has copies of these already in digital format.

Cheers,
Bonnie
