Hello Ida and Bonnie,

True North Gem's water license 2BE-KIM0609 appears to be a Class B Water License, and is therefore exempt from screening under section 12-1 (2) of the Nunavut Land Claims Agreement. If this becomes a Class A Water License application, please refer it to the NIRB for screening.

Thank you for following up on this application.

Best regards,

Hello Bonnie,

Please confirm to NIRB for Screening and NPC for Conformity as we need confirmation on file. I have cc'd both organizations onto this email.

NPC we have an Conformity that was done January 28, 2010 on file, not sure if we need an revised confirmation for this renewal application. (for your info)

Bonnie please confirm who will be the contact person for the care of licence, is it you?

Regards,
