Comments:

Phyllis,

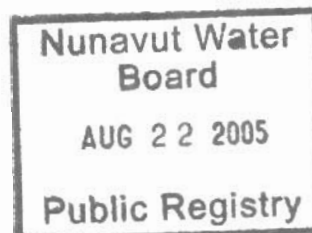

Earlier to our conversation today, Mark Connolly of True North Gems approach me late last week to whether or not to proceed exploration drilling to the above mention. Council approved to drill in the site but with an exception that no chemicals shall be used during the exploration of the project. This letter is to request to obtain a waiver from the Nunavut Water Board to proceed drilling to the site providing that exploration drilling be done with no chemicals.

If you require more information do not hesitate to contact me at the above number and thank you for your assistance in advance.

Sincerely,

Saqiqtaq Temela
