Subject: RE: Updates to Project Activities (1 of 3 emails)

Hi Phyllis,
Environment Canada has reviewed the information submitted by True North Gems and has no concern with the extension of the Beluga Sapphire Project until December, 2009. David Abernethy provided comments to the NWB on the revised Spill Plan and use of the diamond saw on April 19/06.

Thanks,
Colette

Subject: Fw: Updates to Project Activities (1 of 3 emails)

hi Colette,
here is the email from Twila for the Beluga Sapphire Project at Kimmirut providing a simple update to methods used for obtaining the assay sample and the request to extend their project through to Dec09.

If you have any questions, please give me a call. Otherwise, if you could simply confirm with Phyllis (and copy to myself) that the project timeframe is OK with EC, that would be great.

Thanks,

Dave

Subject: Updates to Project Activities (1 of 3 emails)

Good morning Phyllis

Please find attached a letter regarding updates to project activities. I have also attached the revised Spill Contingency Plan (Revised April 2006) and the revised Abandonment and Restoration Plan (Revised April 2006). I will send the files in as 3 separate emails as there are numerous files attached. The first email will contain the Letter to the NWB and the Abandonment and Restoration Plan (Revised April 2006), the second the Spill Contingency Plan (Revised April 2006) and part of the MSDS sheets and the last email will contain the remaining MSDS sheets.

I will be working away from the office this week, if you have any questions please contact me on my cell phone at 250-319-8544 or via email.

Message

Have a good day
Thanks
Twila
