NUNAVUT WATER BOARD

P.O. Box 119
Gjoa Haven, Nunavut
X0E 1J0

Attention: Mr. Philippe di Pizzo, Executive Director

Dear Mr. di Pizzo;

Reference: Water Licence Application, Mountain Lake Claims and Dismal Lake Permits

Please accept the enclosed Water Licence application for the exploration of uranium in the Mountain Lake claims and the Dismal Lake permits and claims within the Kitikmeot region, along with a cheque for \$150.00 (\$30.00 required fee and \$120.00 water use fee), supplementary questionnaire and summaries (English and translated) of the project.

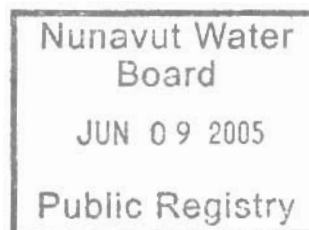

We withdrew our original application upon learning that ours was the first application for the exploration of uranium in Nunavut for some time. In our original application, we had included drilling for this year. This new application is for the construction of a remote camp to conduct mapping and soil sampling. We have removed drilling from the program this year and will submit a separate application for the drilling program for next year. This will give us an opportunity to provide more information to communities and reviewers as needed.

If you have any further questions or require any additional information, please do not hesitate to contact me at (604) 687-6644.

Sincerely,

TRIEX MINERALS CORPORATION

Ross McElroy, P. Geol.
Senior Geologist
