**Attachments:** 070417 2BE-KIR0507 Uranium Exploration Plan INAC Comments-ILAE.pdf

070417

IR0507 Uranium

Thank you for your submission of the renewal application for the above, received in this office on January 7, 2008. Before we continue the process we are requesting that an Inuktitut Summary be provided. Also would you please review your current Abandonment and Restoration Plan and your Spill Plan and send those in to be reviewed once again. I realize that we have copies on file but they were not reviewed internally as we were short staffed in the technical department at the time of submission. The same for your uranium exploration plan. I've attached INAC comments which you may want to take under consideration for resubmit of this plan. Any questions, please don't hesitate to call our office.

Our apologies for not receiving your initial submission in September. It will probably land here about mid-June!! It seems that alot of mail is disappearing on it's way to Gjoa Haven. I still don't understand why the email did not reach us though, unless there was an internet outage right at that time and the server never picked up on it for delivery to my inbox.

Allan - I will contact you at a later date to obtain the VISA information for the payment of necessary fees.  
Regards.
