Hi Saz – I'm currently trying to sort out all your submissions going right back to the initial application, and prior to sending out for review I would appreciate it if you would go onto our ftp site and review the documents under 2011 New and 2011 Withdrawn. I want to be sure that all the pertinent information is accurate and in the 2011 New folder and I've not missed anything. Once confirmation is received from you I will forward the application for a 30 day review..... I noticed that the "executive summary camp" dated March 16, 2011 still indicates 24 drill targets so I put back into the new folder the confirmation email where you've identified 22 as the correct number.
