Nunavut Water Board PO Box 119 Gjoa Haven, NU X0E 1J0

Subject: Extension of Coronation Minerals Inc – Water License NWB2KUG0305

Dear Sir:

EBA Engineering Consultants Ltd. have been retained to obtain extensions to the water licenses for Coronation Minerals diamond drilling operation in the Dismal Lake area of Nunavut.

Coronation Minerals was intending to complete their diamond drilling last season (2004) but were unable to because of the limited availability of drilling crews and diamond drills. They are, therefore, requesting a two year extension to the above water license, to September 2007, so that they can complete their work. The only aspect of their original application that will change is the timing. All other aspects will remain the same and the workers will be housed at the Matrix Aviation Solutions Camp near Hope Lake (Water License NWB6HLC0406).

If you require any additional information concerning this request for an extension please contact Mr. Martin Knutson at (867) 766-3134 or Mr. Ken Weagle at (403) 723-6879.

We look forward to your early response.

Respectfully submitted,

EBA Engineering Consultants Ltd.

Kenneth V. Weagle, M.Sc.
