**Subject:** 2BE-KUG0507 Renewal

Dear Phyllis

I spoke to Don Carr yesterday about combining the Matrix Aviation camp water license at Hope Lake airstrip under the Coronation Minerals Water license for Diamond Drilling at Dismal Lake.

Today I checked with Martin Knutson, President of Matrix Aviation Solutions and he agreed with this move.

This email is to confirm that the camp water license (2BE KUG0507) should be included in the water license for the Coronation Minerals diamond drilling project at Dismal Lake. All material and descriptions supplied for the camp application will be the same as Matrix Aviation will be supplying the camp for the operation. Please remember that the camp is situated on titled land owned by Coronation Minerals.

Thank you  
Ken Weagle

CC Martin Knutson
