

Appendix 3 Compliance Assessment, 2BE-LEP1217

Part	Item	Condition	Compliance Status
PART B - GENERAL CONDITIONS			
B	1	The water use fees, payable to the Receiver General for Canada, shall be sent to the Board annually for the right to the use of water in accordance with Section 9 of the Regulations.	Water use fee deposit included with amendment application.
B	2	The Licensee shall file an Annual Report on the Appurtenant Undertaking with the Board no later than March 31st of the year following the calendar year being reported, containing the following information: a. A summary report of water use and waste disposal activities; b. A list of unauthorized discharges and a summary of follow-up actions taken; c. Any revisions to the Spill Contingency Plan and Abandonment and Restoration Plan, as required by Part B, Item 7, submitted in the form of an Addendum; d. A description of all progressive and or final reclamation work undertaken, including photographic records of site conditions before, during and after completion of operations; e. Report all artesian flow occurrences as required under Part F, Item 4; f. All geochemical sampling results including acid rock drainage and metal leaching results, as required by Part E, Item 7; g. A summary of all information requested and results of the Monitoring Program; and h. Any other details on water use or waste disposal requested by the Board by November 1 of the year being reported.	Ok.
B	3	The Licensee shall notify the NWB of any changes in operating plans or conditions associated with this project at least thirty (30) days prior to any such change.	See amendment application, April 2012
B	4	The Licensee shall install flow meters or other such devices, or implement suitable methods required for the measuring of water volumes as required under Part J, Item 1.	Installed.
B	5	The Licensee shall, for all Plans submitted under this Licence, include a proposed timetable for implementation. Plans submitted, cannot be undertaken without subsequent written Board approval and direction. The Board may alter or modify a Plan if necessary to achieve the legislative objectives and will notify the Licensee in writing of acceptance, rejection or alteration of the Plan.	Plans submitted under this Licence include Spill Contingency Plan (Part H, Item 2) and Abandonment and Restoration Plan (Part I, Item 2). These Plans were submitted for Board review.
B	6	The Licensee shall, for all Plans submitted under this Licence, implement the Plan as approved by the Board in writing.	Ok.
B	7	The Licensee shall review the Plans referred to in this Licence, as required by changes in operation and/or technology, and modify the Plan accordingly. Revisions to the Plans are to be submitted in the form of an Addendum to be included with the Annual Report.	The most current plans have been submitted to the NWB. Changes to the plans are not required at this time.
B	8	Every Plan to be carried out pursuant to the terms and conditions of this Licence shall become a part of this Licence, and any additional terms and conditions imposed upon approval of a Plan by the Board become part of this Licence. All terms and conditions of the Licence should be contemplated in the development of a Plan where appropriate.	Ok.
B	9	The Licensee shall ensure a copy of this Licence is maintained at the site of operations at all times. Any communication with respect to this Licence shall be made in writing to the attention of: (See Licence)	Copies are maintained on site in Camp Office and Main Kitchen area
B	10	The Licensee shall submit one paper copy and one electronic copy of all reports, studies, and plans to the Board. Reports or studies submitted to the Board by the Licensee shall include a detailed executive summary in Inuktitut and Inuinnaqtun.	Ok.
B	11	The Licensee shall ensure that any document(s) or correspondence submitted by the Licensee to the NWB is received and acknowledged by the Manager of Licensing.	Ok.
B	12	This Licence is assignable as provided for in Section 44 of the Act.	Ok.
PART C - CONDITIONS APPLYING TO WATER USE			

Part	Item	Condition	Compliance Status
C	1	Drill water shall be obtained from Contwoyto Lake and other local water source(s), proximal to the drilling targets as outlined in the application and shall not exceed forty-five (45) cubic metres per day. The volume of water for the purposes of this Licence shall not exceed forty-five (45) cubic metres per day.	Water is currently obtained from Contwoyto Lake. Daily water withdrawal volumes have intermittently exceeded the permitted daily water use volume of 45 m ³ /day.
C	2	Streams cannot be used as a water source unless authorized and approved by the Board in writing.	Ok.
C	3	If the Licensee requires water in sufficient volume that the source water body may be drawn down the Licensee shall, at least thirty (30) days prior to commencement of use of water, submit to the Board for approval in writing, the following: volume required, hydrological overview of the water body, details of impacts, and proposed mitigation measures.	No draw down effects anticipated.
C	4	The Licensee shall equip all water intake hoses with a screen of an appropriate mesh size to ensure that fish are not entrained and shall withdraw water at a rate such that fish do not become impinged on the screen.	Ok.
C	5	The Licensee shall not remove any material from below the ordinary high water mark of any water body unless authorized.	Ok.
C	6	The Licensee shall not cause erosion to the banks of any body of water and shall provide necessary controls to prevent such erosion.	Ok.
C	7	Sediment and erosion control measures shall be implemented prior to and maintained during the undertaking to prevent entry of sediment into water.	Ok.
PART D - CONDITIONS APPLYING TO WASTE DISPOSAL			
D	1	The Licensee shall locate areas designated for waste disposal at a minimum distance of thirty one (31) metres from the ordinary high water mark of any water body such that the quality, quantity or flow of water is not impaired, unless otherwise approved by the Board in writing.	Ok.
D	2	The Licensee shall not practice on-site land filling of domestic waste, unless otherwise approved by the Board in writing.	Ok.
D	3	The Licensee is authorized to dispose of all acceptable food waste, paper waste and untreated wood products in an incinerator.	Ok.
D	4	The Licensee shall not open burn plastics, wood treated with preservatives, electric wire, Styrofoam, asbestos or painted wood to prevent the deposition of waste materials of incomplete combustion and/or leachate from contaminated ash residual, from impacting any surrounding waters, unless otherwise approved by the Board in writing.	Ok.
D	5	The Licensee shall provide to the Board, written authorization from the Licensee of 2AM-LUP0914 for the disposal of any wastes from the Lupin Exploration Project, with respect to sewage, solid waste and drill cuttings, prior to the disposal of wastes under that authorization.	Written authorization provided to the Board on March 2, 2012
D	6	The Licensee shall provide to the Board, documented authorization from all communities in Nunavut receiving wastes from the Lupin Exploration Project prior to any backhauling and disposal of wastes to those communities.	No communities in Nunavut have received any waste from the Project.
D	7	The Licensee shall backhaul and dispose of all hazardous wastes, waste oil and non-combustible waste generated through the course of the operation at a licensed waste disposal site.	Ok.
D	8	The Licensee shall maintain records of all waste backhauled and records of confirmation of proper disposal of backhauled waste. These records shall be made available to an Inspector upon request.	Ok.
PART E - CONDITIONS FOR CAMPS, ACCESS INFRASTRUCTURE AND OPERATIONS			
E	1	No camp activities are authorized under the provisions of this Licence.	Ok.

Part	Item	Condition	Compliance Status
E	2	Licensee shall provide to the Board, written authorization from the Licensee of 2AM-LUP0914 for use of the existing camp facilities established under that Licence as requested in the application dated October 7, 2011, prior to the use of those facilities, or as otherwise approved by the Board in writing.	Written authorization provided to the Board on March 2, 2012
E	3	The Licensee shall not erect camps or store material on the surface of frozen streams or lakes including the immediate banks except what is for immediate use. Camps shall be located such as to minimize impacts on surface drainage.	Ok.
E	4	All activities shall be conducted in such a way as to minimize impacts on surface drainage and the Licensee shall immediately undertake any corrective measures in the event of any impacts on surface drainage.	Ok.
E	5	Winter lake and stream crossings, including ice bridges, shall be constructed entirely of water, ice or snow. The Licensee should minimize disturbance by locating ice bridges in an area that requires the minimum approach grading and the shortest crossing route. Stream crossings shall be removed or the ice notched prior to spring break-up.	Ok.
E	6	With respect to access road, pad construction or other earthworks, the deposition of debris or sediment into or onto any water body is prohibited. These materials shall be disposed a distance of at least thirty one (31) metres from the ordinary high water mark in such a fashion that they do not enter the water.	Ok.
PART F- CONDITIONS APPLYING TO DRILLING OPERATIONS			
F	1	The Licensee shall not conduct any land based drilling within thirty one (31) metres of the ordinary high water mark of any water body, unless otherwise approved by the Board in writing.	Ok.
F	2	The Licensee shall dispose of all drill waste, including water, chips, muds and salts (CaCl ₂) in any quantity or concentration, from land-based drilling, in a properly constructed sump or an appropriate natural depression located at a distance of at least thirty one (31) metres from the ordinary high water mark of any adjacent water body, where direct flow into a water body is not possible and no additional impacts are created.	Ok.
F	3	The Licensee may, upon providing to the Board written authorization from the Licensee of 2AM-LUP0914, use the existing tailings disposal facilities for disposal of waste generated under Part F, Item 2, in a designated area of the active facility. This disposal shall be documented and reported as per Part J, Item 3.	Written authorization provided to the Board on March 2, 2012
F	4	If artesian flow is encountered, drill holes shall be immediately sealed and permanently capped to prevent induced contamination of groundwater or salinization of surface waters.	No artesian flow encountered.
F	5	The Licensee shall report all artesian flow occurrences within the Annual Report, including the location (GPS coordinates) and dates.	No artesian flow encountered.
PART G - CONDITIONS APPLYING TO MODIFICATIONS			
G	1	<p>The Licensee may, without written consent from the Board, carry out Modifications to the Water Supply Facilities and Waste Disposal Facilities provided that such Modifications are consistent with the terms of this Licence and the following requirements are met:</p> <ul style="list-style-type: none"> a. the Licensee has notified the Board in writing of such proposed Modifications at least sixty (60) days prior to beginning the Modifications; b. such Modifications do not place the Licensee in contravention of the Licence or the Act; c. such Modifications are consistent with the NIRB Screening Decision; d. the Board has not, during the sixty (60) days following notification of the proposed Modifications, informed the Licensee that review of the proposal will require more than sixty (60) days; and e. the Board has not rejected the proposed Modifications. 	No modifications carried out.

Part	Item	Condition	Compliance Status
G	2	Modifications for which all of the conditions referred to in Part G, Item 1 have not been met can be carried out only with written approval from the Board.	No modifications carried out.
G	3	The Licensee shall provide as-built plans and drawings of the Modifications referred to in this Licence within ninety (90) days of completion of the Modification. These plans and drawings shall be stamped by an Engineer.	No modifications carried out.
PART H - CONDITIONS APPLYING TO SPILL CONTINGENCY PLANNING			
H	1	The Board has approved the Plan entitled Lupin Mines Incorporated, Lupin Project, Nunavut Canada, Spill Contingency Plan, October 2011" received October 13, 2011, submitted as additional information with the Application.	Ok.
H	2	The Licensee shall submit to the Board for review, within sixty (60) days of Licence issuance, an Addendum to the Plan referred to in Part H, Item 1, in the format set out by the Consolidation of Spill Contingency Planning and Reporting Regulations R-068-93 addressing the following issues: a. Recommendations provided by the NIRB, AANDC and EC; b. Inclusion of a site map in an appropriate scale depicting the project's area, spill kits, camp infrastructure, nearby water bodies and any other relevant information; c. Inclusion of information pertaining to the quantities of hazardous substances stored on site for the project; d. Provision of the 24-hour site contact information; and e. Include a copy of the NT-NU Spill Report Form (interactive form and guide);	A revised Spill Contingency Plan was submitted to the Board on March 30, 2012
H	3	The Licensee shall prevent any chemicals, petroleum products or wastes associated with the project from entering water. All sumps and fuel caches shall be located at a distance of at least thirty one (31) metres from the ordinary high water mark of any adjacent water body and inspected on a regular basis.	Ok.
H	4	The Licensee shall ensure that any equipment maintenance and servicing be conducted only in designated areas and shall implement special procedures (such as the use of drip pans) to manage motor fluids and other waste and contain potential spills.	Ok.
H	5	If during the term of this Licence, an unauthorized discharge of waste occurs, or if such a discharge is foreseeable, the Licensee shall: a. Employ the approved Spill Contingency Plan; b. Report the spill immediately to the 24-Hour Spill Line at (867) 920-8130 and to the Inspector at (867) 975-4295; and c. For each spill occurrence, submit to the Inspector, no later than thirty (30) days after initially reporting the event, a detailed report that will include the amount and type of spilled product, the GPS location of the spill, and the measures taken to contain and clean up the spill site.	No unauthorized discharges of waste have occurred.
PART I - CONDITIONS APPLYING TO ABANDONMENT AND RESTORATION OR TEMPORARY CLOSING			
I	1	The Board has approved the Plan entitled "Lupin Project Exploration, Nunavut Canada, Abandonment and Restoration Plan, October 2011", that was submitted as additional information with the Application.	Ok.
I	2	The Licensee shall submit the Board for review, within sixty (60) days of issuance of the Licence, an Addendum to the Plan referred to in Part I, Item 1, to address the following: a. Recommendation by the NIRB, AANDC, EC; b. Provision of the 24-hour site contact information; c. Inclusion of a site map depicting project's infrastructure; and d. Contact information for the relevant regulatory authorities.	A revised Abandonment and Restoration Plan was submitted to the Board on March 30, 2012.
I	3	The Licensee shall complete all restoration work prior to the expiry of this Licence.	Ok.

Part	Item	Condition	Compliance Status
I	4	The Licensee shall carry out progressive reclamation of any components of the project no longer required for the Licensee's operations.	Ok.
I	5	The Licensee shall backfill and restore all sumps to the pre-existing natural contours of the land.	Ok.
I	6	The Licensee shall remove from the site, all infrastructure and site materials, including all fuel caches, drums, barrels, buildings and contents, docks, water pumps and lines, material and equipment prior to the expiry of this Licence.	Ok.
I	7	All roads and airstrip, if any, shall be re-graded to match natural contour to reduce erosion.	Ok. Lupin Exploration Project does not include an airstrip.
I	8	The Licensee shall remove any culverts and restore the drainage to match the natural channel. Measures shall be implemented to minimize erosion and sedimentation.	Ok.
I	9	In order to promote growth of vegetation and the needed microclimate for seed deposition, all disturbed surfaces shall be prepared by ripping, grading, or scarifying the surface to conform to the natural topography.	Ok.
I	10	Areas that have been contaminated by hydrocarbons from normal fuel transfer procedures shall be reclaimed to meet objectives as outlined in the Government of Nunavut's Environmental Guideline for Site Remediation, 2010. The use of reclaimed soils for the purpose of back fill or general site grading may be carried out only upon consultation and approval by the Government of Nunavut, Department of Environment and an Inspector.	No areas have been contaminated by hydrocarbons.
I	11	The Licensee shall restore all drill holes and disturbed areas to natural conditions immediately upon completion of the drilling. The restoration of drill holes must include the removal of any drill casing materials and the capping of holes with a permanent seal.	Ok.
I	12	The Licensee may store drill cores produced by the appurtenant undertaking in an appropriate manner and location at least thirty one (31) metres above the ordinary high water mark of any adjacent water body, where any direct flow into a water body is not possible and no additional impacts are created.	Ok.
I	13	The Licensee shall contour and stabilize all disturbed areas to a pre-disturbed state upon completion of work.	Ok.
PART J - CONDITIONS APPLYING TO THE MONITORING PROGRAM			
J	1	The Licensee shall measure and record, in cubic metres, the daily quantities of water utilized drilling and other purposes as approved by the Board in writing.	Quanties are currently being recorded.
J	2	The Licensee shall provide the GPS co-ordinates (in degrees, minutes and seconds of latitude and longitude) of all locations where sources of water are utilized for all purposes.	Ok.
J	3	The Licensee shall determine the GPS co-ordinates (in degrees, minutes and seconds of latitude and longitude) of all locations where wastes associated with drilling operations are deposited.	Ok.
J	4	The Licensee shall include in the Annual Report required under Part B, Item 2 all data, monitoring results and information required by this Part.	Ok.
