RE: Final Inspection N2011C0006, Mallory Lake Project

Ms. McCaie,

On July 18th, 2014, a final inspection of Adamera Mineral's (formally Uranium North Resources) Mallory Lake Project was completed under water licence no. 2BE-MAL1116. The water licence report detailed the reclamation of the camp, fuel cache, airstrip and all five drill sites associated with this project.

Upon review of this report it was determined that land use permit no. N2011C0006 has also received a final inspection by Field Operations. Please accept this letter as notice of final inspection.

If you have any questions regarding this information, do not hesitate to contact me at (867)-645-2830 or Christine.Wilson @aandc.gc.ca.

Regards,

Christine Wilson
Water Resources Officer
Field Operations Unit

cc. Erik Allain, Manager, Field Operations, INAC Iqaluit.
