Subject: New Application for Type B License

Phyllis:

Based on my discussions with David Hohnstein Agnico Eagle Mines wishes to withdraw the application for a new Type B water license for a new exploration camp at the Meadowbank Project site. We will re-work the application form and resubmit it as a request for an amendment of NWB B2 MEA0507 once the current renewal process has been completed.

Thanks
Larry Connell

Good afternoon Larry. The Nunavut Water Board acknowledges receipt of your application for a new Type B license for Meadowbank, received on December 5, 2007. Could you please clarify for me what the scope of this application is, as opposed to the 2BE-MEA0507 file that is currently being renewed. The new file has been reviewed and our determination is that it could possibly be considered as an amendment to your current renewal since your email suggests that the camp will replace the one now licensed under 2BE-MEA0507.

Will await your response.

Regards,

Phyllis Beaulieu
