To: Robin Ikkutisluk <robin.ikkutisluk@nwb-oen.ca>

Hi Robin,

The Preliminary Technical Review conducted for the above-mentioned project determined that it is ready for distribution for public review and comments.

It should be noted that the Management Plans should have been updated to address the new leases and claims covered by the project's amendment Application; notwithstanding the aforementioned, we can request that the proponent update those plans if and following the panel's granting of Amendment No.1.

Thanks.

Sean
