Re: Waste Oils Disposal with Oomilik Enterprises

Dear Hamlet Council

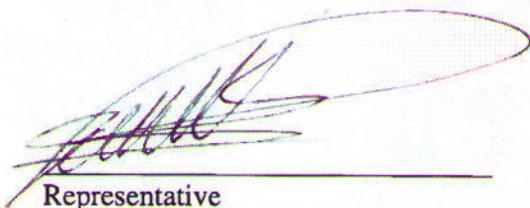

Comaplex Minerals Corp would like to inform the council that Mr. Rick Strickland (Oomilik Enterprises) has agreed to process waste oils generated at the Meliadine West camp at his approved facility. Comaplex has delivered two shipments of waste oils to Oomilik Enterprises as detailed below.

- March 18, 2008 – 8 barrels
- June 1, 2008 – 18 barrels

At this rate we expect to deliver about 60 barrels of waste oil to Oomilik Enterprises in 2008.

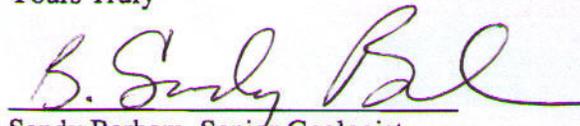

Comaplex Minerals Corp. believes that this approach is the most environmentally responsible disposal strategy for waste oils. We respectfully request that the council acknowledge their approval of this by signing and returning this letter.

If there are any questions, please call me at (403) 265 2846.

Representative
Rankin Inlet Hamlet Council

Yours Truly

Sandy Barham, Senior Geologist
Comaplex Minerals Corp.
