Dear Mr. Witteman:

The Nunavut Water Board (“NWB”) has completed a technical review of the 2009 Annual Report for the above-mentioned project, which was received on March 23, 2010. The annual report was distributed for information. No comments were received regarding the report. The Licensee shall install flow meters or other such devices, or implement suitable methods required for the measuring of water volumes as required under Part J, Item 1.

The Licensee is requested to implement methods for the measuring and recording of water volumes, utilized for camp, drilling and other purposes.
