**RE: NWB Technical Review of 2017 Annual Report for the Wishbone/Malley Project;
Water Licence No. 2BE-MLL1722**

Dear Mr. Pickard:

The Nunavut Water Board (NWB) has completed a technical review of the 2017 Annual Report along with the additional submission provided with the Annual Report. The Annual Report submission included an updated Comprehensive Spill Contingency Plan.

On April 20, 2018, the NWB acknowledged receipt of the Annual Report and the additional submission and provided them to Kitikmeot distribution list for information. No comments have been received to date.

The technical review of the Annual Report, and the additional submission provided, found that the information addresses the requirements of the Licence.

Should you have any questions, please feel free to contact me, Dave Baines, at (867) 360-6338 (extension 29), at your earliest convenience.

Sincerely,

Dave Baines
Nunavut Water Board,
Technical Advisor
