1. Introduction

This report to the Nunavut Water Board (NWB) has been prepared to summarize the project activities and monitoring undertaken by Sabina Gold and Silver Corp. (Sabina) during 2022, in accordance with Part B, Item 2 of License 2BE-MLL1722 (the Licence). The NWB Annual Report Form can be found in Appendix A of this report.

Wishbone-Malley Project is part of Sabina's overall Back River Project which includes the George and Goose exploration camps, the mine facilities under construction at Goose, the Marine Laydown Area (MLA) at Bathurst Inlet, and interconnecting ice and winter roads.

Currently, no infrastructure or equipment is located at the Wishbone-Malley exploration area, although the Licence permits the construction of seasonal or temporary camps. Sabina continues to support Wishbone-Malley exploration activities out of existing Back River Project facilities, minimizing cumulative exploration activity footprint. This includes the housing of personnel at Goose, George or Marine Laydown Area (MLA) camps and making use of approved facilities and management plans for those sites, including in for the disposal of wastes.

No infrastructure or equipment is currently located at the Wishbone-Malley Project and no exploration activities took place in 2022. Sabina has submitted an application for Licence renewal to the Nunavut Planning Commission in 2022 and has subsequently forwarded the application to the Nunavut Water Board. Sabina will not use any water or deposit any waste under this Licence until a renewal is issued.

2. Annual Report per Part B, Item 2

This section of the report has been constructed to address each of the requirements of Part B, Item 2 of the Licence. For ease of comparison, each subheading corresponds directly with the identically alphabetized subheading of Part B, Item 2 of Water Licence 2BE-MLL1722.
