Hello

While processing your renewal application, I found out that the 2011 Annual Report for the Mouse Lake Project wasn't submitted. Please, submit the report as soon as possible, or if that is the case, submit a formal note notifying that the Project was not operating during 2011.

Note that the processing of your Renewal Application will not proceed until the Board receives this report/note

Regards

Sonia Aredes.

Hello Sonia,

The Company project contains drilling plans only for land-based drilling. The current water licence does not authorize on-ice drilling according to Part F Item 7, and we have applied for a renewal of the licence since the scope and characteristics of the project have not changed.

As you have observed correctly, the NIRB has included in its project screening terms regarding on-ice drilling, but, as I previously mentioned the Company is not authorized and does not have plans for on-ice drilling.

Respectfully,  
Bogdan Nitescu, PhD, PGeo

Hello

I am the Technical Advisor working on this file. And I need some clarification on this point:

The Remote Camp Supplementary Questionnaire filled on 2009 by David Bent, UNOR Inc. states that your drilling activities are land based and the Company is not drilling on ice. However, I can see the NIRB Certificate where there are conditions for drilling on ice.

Could you clarify whether drilling on ice is part of the regular drilling activities for this project or not?

Regards,  
Sonia Aredes

Hello Sonia,

Please note that we did submit a formal notification letter regarding the inactivity of the project in 2011. The letter was dated July 11, 2012 and was sent on that date to Ms. Phyllis Beaulieu. I am attaching here a digital copy of the letter. If you need to see any correspondence I had at that time with Ms. Beaulieu via email regarding this letter please let me know and I can try to search for it in my files when I get to the office later this week.

I also provided the details regarding the notification letter and its date in the document titled "Information pertaining to Block 23 of Application Form" (in the section Status Report of the document), which was submitted as part of the Renewal Application package.

Kindly let me know if this message settles the issue and the processing of the application will proceed further.

Best regards,

Bogdan
