**RE: Land Use Permit N2006C0001 Mouse Lake Camp**

On July 23, 2010, I conducted a Field Inspection at the above mentioned location. A copy of the Inspection report is attached, the same copy of which I gave to Mr. Steve Ward during my site visit.

I apologize for the delay in forwarding this report to you.

**Issues Identified during the inspection:**

When I arrived the camp was active, there were 14 people staying at the camp and they were about 20% done their planned Field Season.

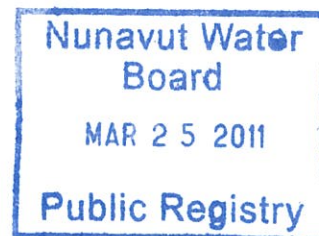

I found the Camp to be very clean and well organized. I was particularly pleased with the Secondary Containment, very well done. I have no issues at this time.

I would like to thank Mr. Ward for his co-operation and assistance during my Inspection.

Please do not hesitate to contact me should you have any questions or comments.

Koana,
