Ms. Phyllis Beaulieu
Manager of Licensing
Nunavut Water Board
P.O. Box 119
Gjoa Haven, NU X0B 1J0

July 7th, 2010

Dear Ms. Beaulieu:

**Re: Hornby Bay Mineral Exploration Ltd. (formerly, UNOR Inc.) (the "Company"), NWB
Licence No. 2BE-MOU0914**

The Company is planning to open the Mouse Lake Camp for the summer exploration program, which will consist of drilling several previously established geophysical targets.

At the locations where nearby ponds/lakes prove to be unsuitable for drilling use according to the regulations, in order to avoid very long water supply lines, we are asking for permission to use water from streams. In such situations, the drilling crew would use a small hose with fine mesh and would draw water at low debit and low velocity to fill a barrel from which water could be supplied for the drilling operation.

Respectfully,

Bogdan Nitescu, PhD

Geologist & Geophysicist, Office Manager
