1 Project Location and Description

The Meadowbank Precious Metal Project (the “Project”) is located in the eastern part of the District of Kivalliq, Nunavut Territory, within 1:50,000 scale National Topographic System (“NTS”) map sheets 56D12 (Whitehills Lake) and 13 (Tehek Lake), 66A09 (Halfway Hills), 10 (Ayaktuukvik Lake) and 16 (Amarulik Lake) and 66H01 (unnamed) and 08 (unnamed). The Project consists of three non-contiguous claim blocks (Black A, B and C) located on Crown Lands, approximately 50 km north of the community of Baker Lake (Qamani'tuaq) and 280 km northwest of the community of Rankin Inlet (Kangiqliniq; Figure 1.1). The mineral claims are all 100% owned by 5530 Nunavut Inc, a wholly owned subsidiary of Western Atlas Resources Inc.

All claim blocks comprising the Project are accessible by the Agnico Eagle Mines Limited (“Agnico”) All Weather Access Road (“AWAR”) linking Baker Lake to Agnico’s Eagle’s Meadowbank Amaruq mines. Permission is required from Agnico to use the AWAR. Fixed-wing and helicopter charters may be arranged either from Rankin Inlet, Nunavut, or from Yellowknife, Northwest Territories. To date, authorization to use the AWAR has not been requested or obtained by 5530 Nunavut Inc. and therefore the road has not been utilized.

2 Land and Water Use Authorizations

All land and water use authorizations are in the name of 5530 Nunavut Inc., a wholly owned subsidiary of Western Atlas Resources.

Table 2.1 details the land and water use authorizations associated with the Meadowbank Precious Metal Project.

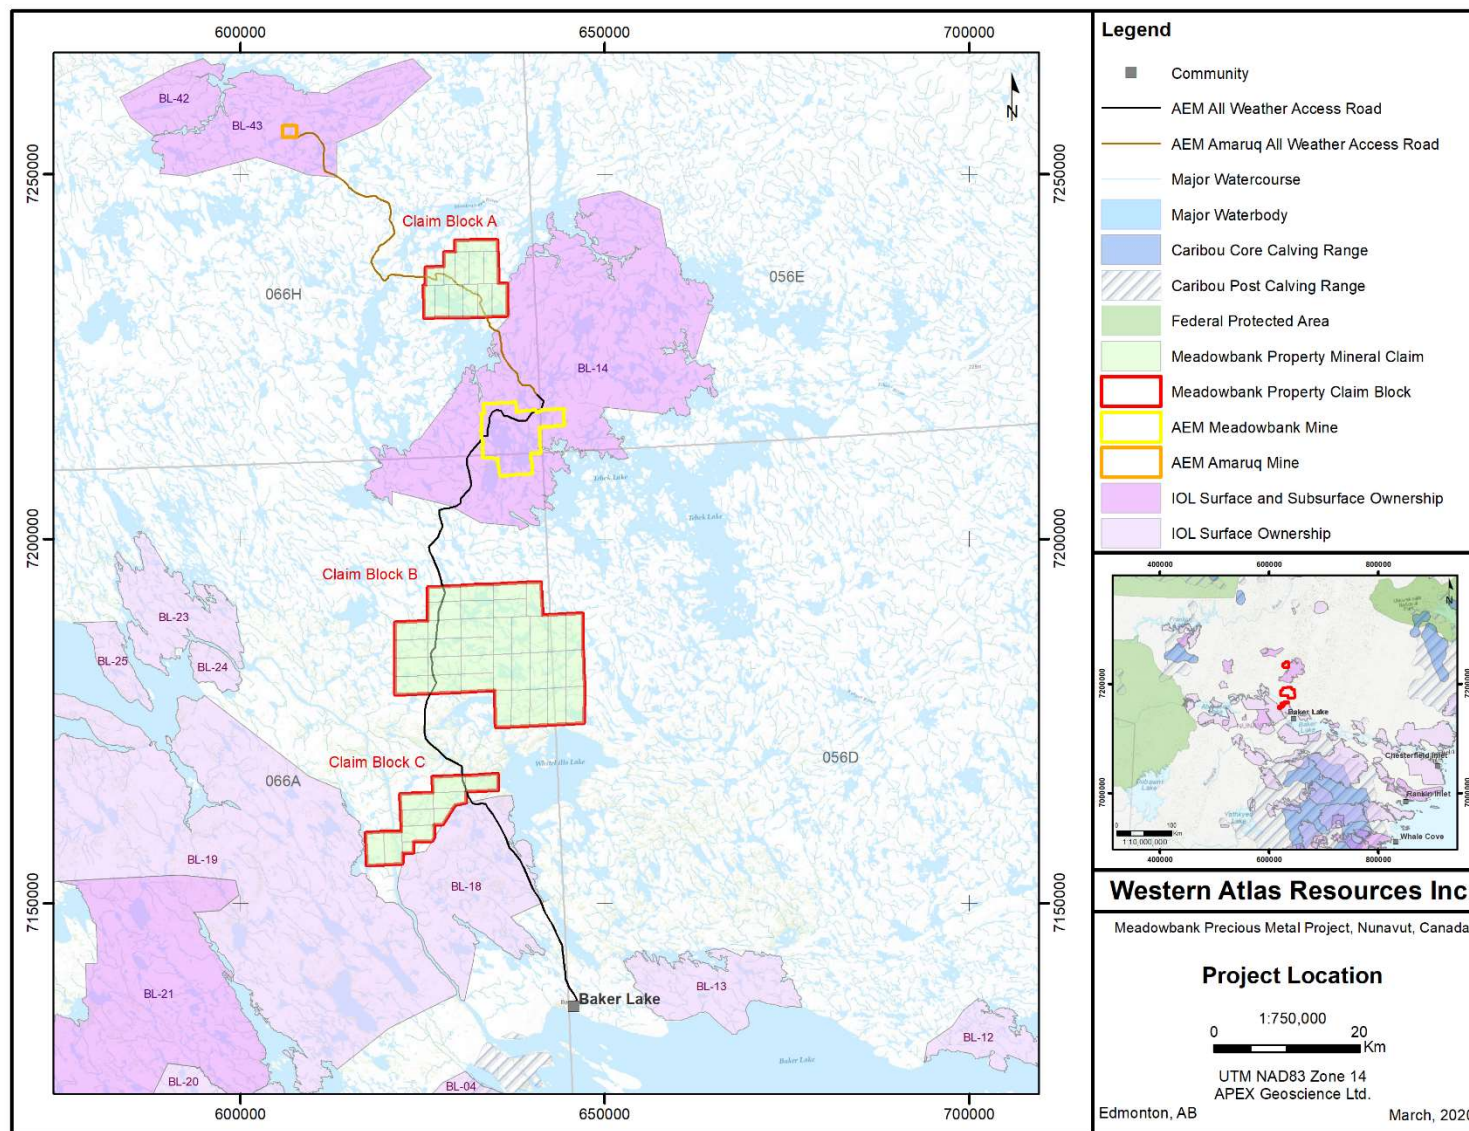

Table 2.1 Meadowbank Precious Metal Project Land and Water Use Authorizations

<u>Organization</u>	<u>Authorization</u>	<u>Authorization Number</u>	<u>Expiration Date</u>
Nunavut Planning Commission (“NPC”)	Conformity Determination	148482	N/A
Nunavut Impact Review Board (NIRB)	Screening Decision	17EN020	N/A
Indigenous and Northern Affairs Canada (“INAC”)	Land Use Permit	N2017C0005	March 7, 2022
Nunavut Water Board (“NWB”)	Water Licence	2BE-MPM1722	July 27, 2022

3 2019 Exploration Program

The 2019 field exploration program on the Meadowbank Precious Metal Project was comprised of a helicopter-supported Property visit. The Property visit was completed by Western Atlas Resources Senior Exploration Geologist, Victor Torres; two Gran Colombia Gold Corp. staff (Vice President of Exploration, Alessandro Cecchi and Senior Geologist, Giovanni Funaioli) and Custom Helicopters pilot, Victor Cobb). The Property visit was completed between September 7th to 9th, 2019.

Figure 1.1 Meadowbank Project Location

3.1 Infrastructure

No camp was constructed in 2019 as the Property visit was based out of Baker Lake.

The Western Atlas and Gran Colombia Gold Corp. staff were transported to the Property by helicopter and therefore the Agnico Eagle all-weather road was not utilized.

3.2 Fuel Caches

As exploration was performed during 2019, no fuel caches were required.

3.3 Water Use

As exploration was performed during 2019, no water was used.

3.4 Aircraft Landing Sites

Table 3.1 details, and Figure 3.1 illustrates, the helicopter landing sites for the 2019 Meadowbank Precious Metal Property visit.

3.5 Wildlife Sightings

Small mammals, such as ground squirrels were seen on the Meadowbank Precious Metal Project during the 2019 Property visit, but no large animals were observed.

3.6 Spills

No hydrocarbon spills occurred during the 2019 Property visit.

3.7 Archaeological and Palaeontological Resources

In June of 2017, 5530 Nunavut Inc. commissioned Golder Associates to complete an Archaeological Overview Assessment for the Meadowbank Precious Metal Project.

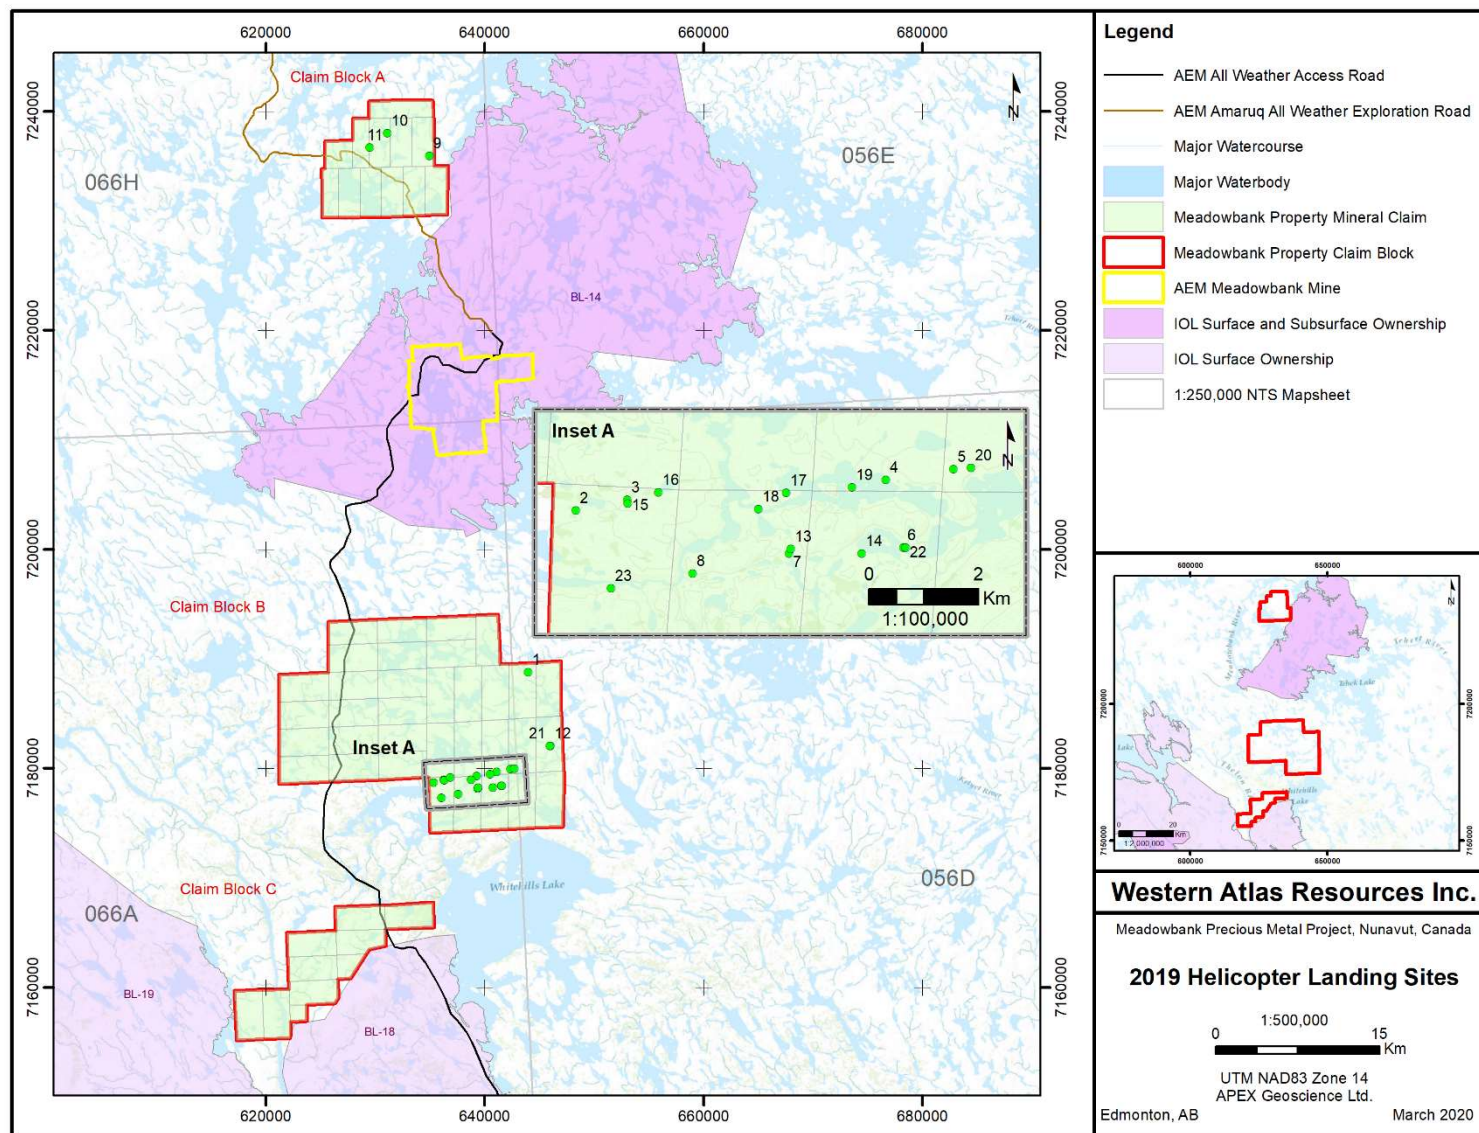

The Archaeological Overview Assessment provided 5530 Nunavut Inc. with information of known sites in the Project area and where there is a high potential for the discovery of undocumented sites. The report was used to assist in the Project planning for the 2018 exploration program and will be used for planning all future programs.

No new or known archaeological sites were encountered during the 2019 Property visit.

3.8 Environmental Studies

No environmental studies were conducted during 2019.

3.9 Northern Hires/Contracts

Western Atlas Resources Inc. aims to employ employee or contract Inuit and/or northern personnel or businesses whenever possible. Table 3.2 lists the northern businesses contracted for the 2019 Meadowbank Precious Metal Property visit.

Table 3.2 Northern Businesses Contracted for the 2019 Meadowbank Precious Metal Property visit

Food and Accommodations

Nunamiut Lodge: Baker Lake

Baker Lake Lodge: Baker Lake

Northern Store: Baker Lake

Baker Lake Contracting & Supplies Ltd: Baker Lake

Aircraft

Calm Air: Winnipeg, Rankin Inlet, Baker Lake

Custom Helicopters: Rankin Inlet, Baker Lake

Logistics

SK Construction: Baker Lake

Denroche & Associates: Yellowknife

4 Proposed 2020 Exploration Program

Although planning of the 2020 exploration program is currently in progress, the 2017 and 2018 geological mapping, geochemical sampling, helicopter-borne VTEM geophysical survey and ground IP surveys, in conjunction with the interpretation of the 2017 high-resolution aeromagnetic survey data has resulted in the identification of a number of targets which require follow-up work, including drilling.

The data interpretation from the 2017 and 2018 field programs has resulted in the identification of drill targets within 3 areas of Block B (Figure 4.1). It is anticipated that a number of these targets will be drilled in 2020. In addition to drilling the already defined targets, the 2020 field program is anticipated to include additional helicopter-borne VTEM and ground IP surveys to be conducted over prospective areas within Blocks A, B and C to aid in the definition of additional drill targets.
