**RE: NWB Technical Review of 2019 Annual Reports for Water Licences Nos:
2BE-MPP1924, Mel Project, and 2BE-QIL1722, Naujaat Project.**

Dear Mr. MacMorran:

The Nunavut Water Board (NWB or Board) has completed its technical review of the 2019 Annual Reports (Reports) for the above stated Water Licences provided to the Board on March 6, 2020. On March 9, 2020, the Board acknowledged receipt of the Reports and made them available to the Qikiqtani and Kivalliq distribution lists for information. No comments have been received to date.

The technical review of the Reports determined that the information provided generally addresses the requirements of the respective Water Licences.

The NWB would like to remind the Licensee that an Addendum to the approved *Spill Contingency Plan* for Water Licence No: **2BE-MPP1924** should be submitted to the Board for review, as per **Part H, Item 2** of this Water Licence, to include *the contact information for the on-site person in charge of the project once an on-site phone system is established at the camp.*

Should you have any questions, please feel free to contact the undersigned at (867) 360-6338 (extension 29) or at sergey.kuflevskiy@nwb-oen.ca, at your earliest convenience.

Sincerely,

Sergey Kuflevskiy
NWB Technical Advisor
