To: Richard Dwyer <richard.dwyer@nwb-oen.ca>

Thanks Richard.

In regards to the recommendation to amend the Spill Plan emergency contact information for project manager and the camp. It is still our (North Arrow's) intention, as stated in our permit application, to provide this information if/when work commences at the Mel Project – just to confirm, there are currently no plans to conduct work at Mel this year or next.

Regards,

Mike
