RE: Water License Inspection (2BE-MRC1217) and Land Use Inspection (N2012C0006)

I am currently engaged in the planning and development of the 2014 Aboriginal Affairs and Northern Development Canada Field Operation's Inspection Schedule of Water and Land Use in the Territory. Water License 2BE-MRC1217 and Land Use Permit N2012C0006 were identified as part of our assessment of sites requiring an inspection for this year. I hope to be in the Kivalliq Region on July 3, 2014 with your inspections scheduled tentatively for the **July 9, 2014**.

To assist me with preparing for the inspection, I would like the following information:

- Names and positions of staff associated with the project
- Confirmation of exact coordinates (degrees/min/sec, NAD 83) of activities (i.e.: fuel caches, camp, and drill locations).
- Information pertinent for a site visit (i.e.: recent activities, current plans, site hazards or restrictions, site safety protocols, etc.).
- Any other Land use permit (LUP) numbers associated with this site
- Outstanding documents or documents recently submitted to the Nunavut Water Board and/or Aboriginal Affairs and Northern Development Land Administration Division (i.e.: within the last 60 days)

This information will allow us the opportunity to review the terms and conditions of this license with you or your staff and resolve the outstanding issues, if any.

I am looking forward to our visit and hope we have the opportunity to work cooperatively together this coming year.

Sincerely,

Sent by E-mail

Justin Hack
