**RE: Water License Inspection (2BE-MRP1116) and Land Use Inspection (N2011C0016)**

---

I am currently engaged in the planning and development of the 2014 field inspection schedule. While it is too early to predict the exact date, I hope to be in the Kivalliq Region and conducting inspections starting on the July 3, 2014 with your inspections scheduled for the **July 9, 2014**.

I will be inspecting the sites associated with Water License 2BE-MRP1116 and Land Use Permit N2011C0016 to conduct inspections on water use, land use, waste management and other related issues.

To assist me with preparing for the inspection, I would like the following information:

- Names and positions of staff associated with the project
- Confirmation of exact coordinates (degrees/min/sec, NAD 83) of activities (i.e.: fuel caches, camp, and drill locations).
- Information pertinent for a site visit (i.e.: recent activities, current plans, site hazards or restrictions, site safety protocols, etc.).
- Any other Land use permit (LUP) numbers associated with this site
- Outstanding documents or documents recently submitted to the Nunavut Water Board and/or Aboriginal Affairs and Northern Development Land Administration Division (i.e.: within the last 60 days)

This information will allow us the opportunity to review the terms and conditions of this license with you or your staff and resolve the outstanding issues, if any.

I am looking forward to our visit and hope we have the opportunity to work cooperatively together this coming year.

Sincerely,

*Sent by E-mail*

**Justin Hack**
