Attention: Rita Becker - Licensing Administrator
rbecker@polarnet.ca

Please find enclosed an application package for a water license for an exploration project that Anglo intends to carry out this summer under a pending Agreement with Muskox Minerals Corp.

The package includes an executive summary in English, an executive summary in Inuktitut, relevant diagrams, completed application forms, completed supplementary questionnaire, and pertinent MSDS sheets or equivalent. In addition, we have included a cheque in the amount of \$30.00 for the application fee.

We are in the process of submitting our Federal Land Use Permit application as well the Access to Inuit Owned Land application.

We understand that Muskox Minerals may be in the process of trying to renew its Water Licence NWB2MCG0002. Should Muskox be successful, AAEC may ask to be included on this licence so that we may accelerate the start of our exploration program.

Please sign, date and return the attached "Confirmation of Receipt" letter to our office (by fax is fine) for our records.

Please feel free to contact me should you have any questions or concerns regarding this application.

Regards,

Gary DeSchutter
Project Geologist
Anglo American Exploration (Canada) Ltd.
