**Subject:** NWB2NAD0206 Spill response plan

Rita,

Attached is a revised spill response plan for NWB2NAD0206 as you had requested.

After all the rush to get in an ammendment to cover the Dewar Lakes site, we were forced to abandon the programme due to liability problems in using the DEW line airstrip. As a result of the efforts of NTI, Nunasi, Nasittuq, and Nunavut government people, we were ultimately able to overcome this problem but by then our survey contractor had directed their aircraft to another job in Africa. That said, we are attempting to reshedule thinks to begin sometime in June. A July/August geological mapping programme will follow up the airborne geophysical survey.

Jeremy Howe
