RE: IAND + QIA Land Use Permits

Number of pages including this cover page 6. If you do not receive all pages, please call for retransmittal.

Message:

Jim / Phyllis:

Attached are the following permits:

① QIA - Lic. # Q04L3C01 (1 page)

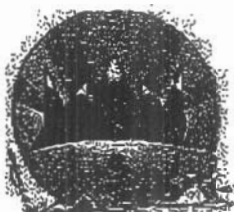

② IAND-LUP # N2002C0001 (2 pages)

Transfer from BHP to Commander

③ IAND-LUP # N2004C0004 (2 pages)

This was an application for an LUP in
Commander's name. The transfer from BHP
was for back-up in case this new application
was not processed in time for the 2004 season

Attention: Wes Raven

Dear Mr Raven:

Re: Land Use Permit #N2002C0001
Type of Operation: Mineral Exploration
Location: Central Baffin, Nunavut

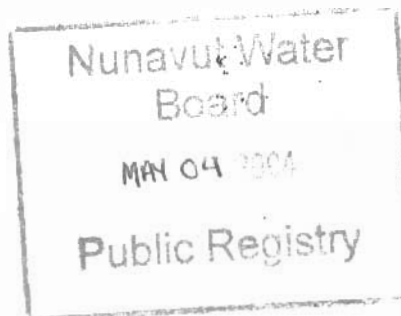

The assignment of the BHP Billiton Diamonds Inc. land use permit N2002C0001 for a campsite, mineral exploration and diamond drilling, from BHP Billiton Diamonds Inc. to Commander Resources Ltd. is hereby approved.

Please adhere to all operating conditions annexed to your land use permit.

Enclosed is a copy of the land use permit for your records.

Yours truly,

Spencer Dewar
Land Administration Specialist
Land Administration.

Enclosed is your copy of Land Use permit number **N2004C0004** authorizing your project as described in your application dated January 23, 2004.

Your application has received a wide distribution to other Federal departments, Government of Nunavut departments, communities in the area of your operation and concerned Inuit groups. In distributing your application the Nunavut Impact Review Board (NIRB) sought comments from these various agencies based on their area of expertise that will help ensure minimum negative impact on the environment. The issuance of this permit indicates that as a result of the NIRB environmental screening process it was decided that the potentially adverse environmental effects that may be caused by your proposal are mitigable with known technology and are not significant. The terms and conditions in the permit will, in our opinion, provide the necessary protection to the environment.

The Nunavut Impact Review Board has also recommended the following:

1. The Permittee shall ensure that all water intake hoses are equipped with a screen with an appropriate mesh size to ensure that there is no entrapment of fish.
2. Fuel storage shall either be equipped with secondary containment and other hazardous materials should be located in such a manner as to prevent their release into the environment.
