Re: BHP Billiton World Exploration – Nadluarjuk Lake- **CHANGES TO APPLICATION**

The distribution list had until December 20, 2002 to review the renewal application with regards to this project. Prior to our office completing the technical review of this application, the proponent sent an e-mail on January 16, 2002 seeking to accommodate additional work under the same renewal application.

NIRB completed screening of the renewal application on January 9, 2002 and indicated on January 22, 2002 that no re-screening would be necessary as long as the distribution list would have an opportunity to review the proposed changes

I am attaching the information with regards to the changes requested. For your information, the renewal application documents are still available on <ftp.nwb.yk.com>.

The Nunavut Water Board is accepting additional written concerns and comments with regards to the proposed changes before **February 8, 2002**.

Sincerely,
