Subject: RE: NWB2NAD0101- BHP - Nadluarjuk Lake
Hi Rita,

Review on above application was completed on the 29th of January, 2002.

This project falls outside the boundary of the North Baffin Land Use Plan therefore no review is required by the NPC. Any questions please do not hesitate.

thanks.

Brian/

**Importance:** High

Hi Brian,  
I'm just finishing off the file for NWB2NAD0101. If you recall, this is on Central Baffin and when I requested conformity review, you indicated that it falls outside the boundaries of the North Baffin Land Use Plan and so doesn't require review.

However, I just noticed that for NIRB's screening report, Gladys had attached a comment saying that comments were expected from you to NIRB but that she was going to be out of the office at that time (back in January) and that I should ask you to send them directly to me.

Would you be able to send me a copy of any comments you sent to NIRB on this file? I will be out of the office at the end of the week, so if you could do this soon, it would be much appreciated. Thanks in advance,
