Subject: RE: NWB2GEO9702- Technical reports for REVIEW

Hi Rita, first I have a comment for the distribution list: Joe Tigullaraq no longer works for QWB (for 1 year). Goo Arlooktoo is now the Executive Director (same e-mail). And my name is still written Jose (it is Josee). They are just details. Thanks

Here are the rest of the applications I reviewed:

NWB2ELU & NWB2NAD0101

-

I have no concerns with this application so long as communities / HTOs relevant and the Kitikmeot Hunters and Trappers Association are informed and all support the project.

NWB5QIK

I have no concerns with this amendment application so long as the community of Qikiqtarjuaq and its HTO are informed and support the project.

Also, I am trying to access – in the FTP site, in the Polaris folder, this attachment:

020107polresponseattach18-IEDE.pdf But, **The page cannot be displayed. Is it because someone else is in it? The document is the Memorandum to B. Donald from Peter Chapman and Cathy McPherson of EVS Environment Consultants regarding “Removal of Garrow Lake Dam – Significance for Garrow Bay Marine Organisms” dated Nov. 29, 2001.**

Thank you, more reviews to come.

Regards
