RE: 2BE-NAD0813 Type "B" – Amendment No.1

Dear Mr. Sexton:

Please find attached, Amendment No.1 to Licence No. 2BE-NAD0813 Type "B" issued to Commander Resources Ltd. by the Nunavut Water Board (NWB) (**Motion 2010-10-L04 2010-01-L04**) pursuant to its authority under Article 13 of the *Agreement between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada* and the *Nunavut Waters and Nunavut Surface Rights Tribunal Act*. The terms and conditions of the original Licence related to water use and waste disposal remain an integral part of this approval.

The NWB strongly recommends that the Licensee consult the comments received by interested persons on issues. The NWB notes that, among others, there is a NIRB Decision, File No.04EN022 that includes a condition to comply with emission limits established under the Canada-wide Standards (CWS) for Dioxins and Furans and the CWS for Mercury Emissions during the incineration of combustible materials and camp wastes. This information is attached for your consideration.

Sincerely,

Thomas Kabloona
Nunavut Water Board, Chair
