Re: **Final Report per Nunavut Water License NWB2NAP0204**

Dear Sir:

We wish to request closure on the above noted permit obtained for water use at a proposed exploration camp, which was to be located near Napaktulik Lake (NTS 86I). Kennecott did not move forward with this operation, and consequentially no camp was ever constructed on this site and there was no water use under this permit.

Please contact me at the above numbers or by email if you require further information.

Yours truly,
KENNECOTT CANADA EXPLORATION INC.
