Re: NTI Exploration Areas

The Nunavut Water Board received an application for a new water license from Strongbow Resources for exploratory drilling, ground geophysical surveys, mapping, and prospecting.

Notice of this application will be posted at local organizations in Cambridge Bay, Kugluktuk, Umingmaktuk, and Bathurst Inlet.

The following documents are available through the internet on our NEW ftp site at <ftp://ftp.nunavut.ca> in the folder “nwb” and sub-folder “NWB2NTI”:

- notice (in English and Inuinaqtun)
- cover letter dated April 11, 2003
- application form
- supplementary questionnaire
- maps
- executive summary in English and Inuktitut
- project description
- abandonment and restoration plan
- spill response plan
- MSDS sheets
- summary list of exploration for the project area

Take note that the NWB has also received technical submissions along with this application. Please review these documents as necessary and forward any comments to this office before the deadline indicated.

**NWB2NTI** does not fall within an approved land use plan; therefore conformity review by NPC was not required. NWB2NTI is currently being screened by NIRB, and can then be processed by NWB. Parties involved in NIRB’s screening can send their comments directly to NIRB as per their instructions. For all other parties, the Nunavut

Water Board is accepting written concerns and comments with regards to this project before **June 30, 2003**.

Sincerely,

*Original signed by:*

Rita Becker  
Manager of Finance, Licensing, and Administration
