Hello,

This email is to inquire as to if there is any special documentation or reports that NWB, INAC, or LAC would require as our current permits for the Nueltin Lake Project will expire this year.

I am just wrapping up the final documentation for the 2009 annual report which you should receive shortly, but I would just like to know if we require any other documentation for the end of licence as a whole.

On another note, budget restrictions has forced us to cancel any exploration activities on the Nueltin Project for the 2010 season, so we will not be renewing or extending our permits until we are in need of them for a new program.

Thank you!  
Kristl
