Hello,

This is to notify you that Geiger Energy Corp. (formerly Forum Energy Metals Corp.) will begin hauling supplies and equipment from Baker Lake to the Aberdeen camp in preparation for the 2026 summer exploration program. The summer exploration program is expected to run from late May to mid September.

Hauling is expected to begin shortly and will comprise several trips of fuel and drilling equipment into camp, and backhauling drill equipment of the previous drill contractor.

If there are any questions, please do not hesitate to reach out.

Cheers,  
**Martin Kulla**

Project Geologist  
**Geiger Energy Corp.**
