Hello,

This is to notify you that Geiger Energy Corp. (previously Forum Energy Metals) will begin conducting a two-drill exploration program on our Aberdeen Project, 100 km west of Baker Lake. The program is expected to begin in early June and finish in mid-August/September. We are planning for 6,000 to 8,000 m of drilling at two main target areas (Loki and Tatiggaq) and possibly some exploratory targets if there is time. We will have one helicopter on site.

Overland hauling of drill equipment and fuel has been underway for several weeks. A small crew will mobilize to the Aberdeen Camp during the first week of June to open camp and conduct any necessary repairs. The remaining crews will arrive shortly afterward. Drilling is expected to commence by mid-June.

Courtesy Ruthven (Project Geologist, [cruthven@geigerenergy.com](mailto:cruthven@geigerenergy.com)), myself (Project Geologist, [mkulla@geigerenergy.com](mailto:mkulla@geigerenergy.com)), and Rebecca Hunter (CEO, [rhunter@oregroup.ca](mailto:rhunter@oregroup.ca)) are the main contacts for this project. Please include all three of us in any communications.

If you have any questions, please do not hesitate to reach out.

Regards,  
**Martin Kulla**

Project Geologist  
**Geiger Energy Corp.**
