Hello,

This is to notify you that Forum Energy Metals 2025 drill exploration program on its Aberdeen Project has concluded. The camp has been closed for the winter and all personnel have left.

In August, Forum went through a merger and is now called Baselode Energy Corp. There will be a name change in the coming weeks after which the company will be called Geiger Energy Corp. For the time being, we will continue using our Forum Energy emails.

If there are any questions, please don't hesitate to ask.

Regards,

Martin

Project Geologist
