Hello,

This is to inform you that Geiger Energy Corp. has finished their 2026 exploration program on their Aberdeen project, west of Baker Lake. Camp was closed for the season on September 23rd and all crews have demobilized.
We completed 6,500 m of drilling in 26 holes on four target areas. We made two discoveries of mineralization at the Fox and Apollo targets and these will be our primary focus when we return in 2027.

The 2026 Annual Report and Water Use reports will follow in the coming weeks.

Water License: 2BE-NUP2227
Land Use: N2022C0008
KIA Inuit Land Use: KVL322C01

If there are any questions, please don't hesitate to reach out to myself, Courtney, or Tiffany.

Cheers,
Martin Kulla, B.Sc. (Hons.), G.I.T.
Project Geologist
